

DO SOMETHING AMAZING THIS SUMMER!

Become a Certified Hospice Volunteer!

Volunteers are essential members of the Family Centered Hospice Care Team, providing non-clinical services and friendly visits to those facing end of life, giving emotional /spiritual support to patients and their families, reading to patients, listening to music or watching movies together, or encouraging patients to recall their life highlights and memories and helping to create a journal that they can leave for their families. The possibilities are endless and rewarding to both patient and volunteer. Direct Patient Care Volunteers must be age 18+ and Administrative/Special Projects Volunteers must be age 16+.
